

# PRINTABLE RING SIZER

## METHOD 1

- Print out the paper ring sizer shown below.
- Cut along the dotted line where it says “Find your size” to create a small slit.
- Insert the pointed end through the slit and wrap it around your finger.
- Adjust the strip until it fits your finger snugly but comfortably.
- READ the number where the arrow lines up—this is your ring size.
- Note: Don't pull the paper too tight; a secure but comfortable fit is best.
- Pro Tip: For best results, ask someone to help you measure.
- Double-check to make sure your reading is accurate.

## METHOD 2

- Print the chart with ring size circles provided below.
- Grab a ring your special someone already wears.
- Ensure it's a ring they wear on the same finger you're shopping for.
- MATCH: Place their ring over the circles on the chart and find the one that aligns exactly with the inside edge.
- VERIFY: The correct size will match the inner edge of the ring perfectly—without overlapping.
- CONFIRM: Double-check to be sure you've got it right.
